

A Tally of Las Vegas Resorts and Hotels with and without Resort Fees

Current as of June 2014

This Information was found online and I am sharing this with you all. IF you find any discrepancies let me know. They are ever-changing.

What you need to know is that most Las Vegas hotels now charge resort fees. They are not part of the final total listed on your reservation and collected directly by the hotel at check-out. With few exceptions, you can ASKA during check-in to have it removed if you are not going to use any of the amenities, but don't expect it to happen. Resort fees often cover features you will want to have, such as wireless internet access, 800 number calls, fitness center access, newspapers, bottled water, hotel pool access, etc. The fees are charged nightly **per room**.

The amount of a resort fee is the same if you book directly with the hotel, or through an online travel site or through a Travel Agency. Below is a list of hotel resort fees and what it includes. IMPORTANT: there is a 12 percent tax (could change) even on the fees. Below you will also find a list of locations that do not charge resort fees (current as of June 2014).

Aliante \$9.99+tax

In-room high-speed internet.
