Amanda's Amazing Adventures

The past couple of months have been a whirlwind of excitement and experiencing new things at Roseborough. Since coming back from Maternity leave in late June I hit the ground running with event after event after event. But the biggest thing happening is our re-imaging project.

When Cathy, Tiffany, and I took over Roseborough four years ago we knew there had to be some major changes. We essentially bought a travel agency in one of the worst economies our country has known. We sell "luxury," a commodity that many people give up when looking for extra money to pay their "need" bills. We knew we had to make some changes in the office but also knew we had to keep the lights on. We pushed through the last four years and grew our business, hired our first employee, and grew our outside sales force from two to ten. Still, the one thing hanging over our heads was our office... though we will be celebrating 45 years in business this year, we don't want to look like we haven't changed a single thing within those 45 years...

July 1st we took on a re-imaging project. We started knocking down walls, taking out old carpet, putting fresh paint up, and much much more.

As I write this, I shake thinking "What if it doesn't get done?"... but I am writing it, therefore it will happen. We will have a grand re-opening business after hours event October 30th! We would LOVE for you all to join us and see our newly refreshed office and allow us to unveil our fresh, new corporate image.
